PROFESSIONAL SUMMARY

Driven and adaptable Full Stack Web Developer with expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js). Collaborative team player, skilled in translating project requirements into functional web applications. Proficient in JavaScript, HTML, CSS, and RESTful API design. Detail-oriented and experienced in optimizing database models and queries. Quick problem solver with a commitment to software excellence.

PROJECTS

1. Nordstrom Clone | | |

html | css | Javascript | React | Node js | Express js | mongo db | mongoose

- Developed an online shopping application similar to Nordstrom within a 9-day timeframe.
- Implemented features such as sliders, product browsing
- I utilized HTML5, CSS3, and React for the front end of my project, while Node.js and Express.js were used for the backend. I employed MongoDB with Mongoose for database management, and Git was used for version control.

2. Travelocity-clone | | |

HTML | CSS | JavaScript | React

- Developed an engaging user interface for the home page.
- Crafted an appealing UI for the home page.
- Independently executed the entire project in just 7 days.

3. Superhero Resume | |

html | css

- Created an eye-catching resume tailored for Ironman.
- Executed as an individual project, completed within a swift 1-day timeframe.
