Hitesh Sharma

Full Stack Web Developer

PROFESSIONAL SUMMARY

Front-end developer intern with hands-on experience at Karkhana.io, specializing in optimizing SEO meta elements and debugging front-end issues. Skilled in enhancing website performance and user experience, with a strong focus on troubleshooting and problem-solving. Passionate about web development and continuously improving skills in collaboration with development teams

WORK EXPERIENCE

Karkhana.io
Frontend Intern
July 2024 – October 2024
Job responsibilities:

- Enhanced website performance and user interface, aligning with user needs and improving engagement.
- Optimized SEO elements, boosting search engine visibility and site traffic.
- Identified and resolved front-end bugs, ensuring a smoother and more reliable user experience.
- Collaborated with the development team, gaining valuable skills in troubleshooting and problem-solving.

PROJECTS

1. Superhero Resume | 🌐 | 🌐
HTML5 | CSS3

- Designed and implemented a visually appealing resume using HTML5 and CSS3, tailored specifically for Ironman.
- Completed the project within a swift 1-day timeframe, demonstrating efficient time management and execution.
- Focused on delivering a beginner-level project with a high level of attention to detail.

2. Travelocity-clone | 🌐 | 🌐
HTML5 | CSS3 | JavaScript | React | Git | Tailwind CSS

- Utilized Tailwind CSS to create a visually appealing and responsive UI design.
- Implemented interactive features and functionalities using JavaScript to enhance user engagement.
- Completed the project independently within a tight 7-day deadline, demonstrating strong problem-solving skills and self-motivation.

3. Nordstrom Clone | 🌐 | 🌐
HTML5 | CSS3 | JavaScript | React | Git | Node.js | Express.js | MongoDB | Responsive Web Design

- Developed an online shopping application clone of Nordstrom using the MERN stack, ensuring efficient performance and user-friendly interface.
- Designed and developed RESTful APIs using Node.js and Express.js to manage server-side operations effectively.
- Utilized MongoDB and Mongoose for creating and optimizing database models, ensuring efficient data management.
- Ensured smooth integration between frontend and backend components, enhancing overall application functionality and user experience.
